U.S. Patent and Trademark Office PTO-326 (Rev. 04-01) Application/Control Number: 10/009,566

Art Unit: 1616

Claims 1-3 and 22-39 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 10.

Restriction to one of the following inventions is required under 35 U.S.C. 121.

Group I: claims 40-44 are drawn to a method for selecting a neuroprotective compound.

Group II: claims 45-49 are drawn to methods and compositions for treating or improving cerebral functional disorders and /or cerebral organic disorders in a patient in need thereof.

The several inventions above are independent and distinct, each from the other, as they have acquired a separate status in the art as a separate subject matter for inventive effect and require independent searches. It is noted that a reference to Group I invention would not be a reference to the Group II invention under 35 U.S.C. 103.

Therefore, restriction for examination purposes is proper.

Applicants are required to make a provisional election even though this requirement is traversed.
